SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1 Subject and methods in the ABSTRACT: Better to mentioned weather you give I.V and oral contrast media. In fact most of the examinations of the cranio cerebral examinations are accident or CVA which may need contrast in the majority cases. In the abdominal and pelvic examination I.V and oral contrast is imoptant in the majority of cases. These things should be clear. 2 Introductions. Line 51-52 CT as mentioned in the paper has better cortical defination. Similarly CT show calcification which is not seen by MRI. This should be mentioned. 3 In all tabeles the nane of the hospital and time of the reserech sould be mentioned. Eg Line 122-123 Showing age and sex distribution of study population in Uyo teaching hospital from Nov, 2012-Aug, 2013 should be added.	Contrast media given have been indicated. Has been mentioned Name of hospital and time of research have been inserted
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
