Subject: Request for evaluation of revised paper, reference number: 2013_IJTDH_7025

I have gone through the revised version of the manuscript. I noticed that the manuscript is in a better shape than it was. Although I would still suggest to indicate the name of the region where the epidemiology is conducted to be included in the title; I would leave this to the editor to decide. If the editor decides the title to remain as it is following the authors stand, I would further suggest the word "burdened" to be changed to "infected" so that the article reads as "Trends in the epidemiology of Brucellosis in a highly infected region in Egypt: A 16 year experience (1997-2012). Due to several grammatical and stylistic errors, I decided that it would be practical to make/ highlight the changes required in the text itself. Therefore, please find my comments highlighted in the attached corrected version of the manuscript. I suggest acceptance of the manuscript with incorporation of the corrections highlighted.
