

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	2013_IJTDH_4759
Title of the Manuscript:	BIOCHEMICAL PARAMETERS OF UMBILICAL CORD BLOOD IN NIGER DELTA, NIGERIA: TOWARDS ENSURING EFFICIENT CORD BLOOD STEM CELL TRANSPLANTATION.

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Improved. Authors have globally responded to my doubts. Besides, I understood that the work has been carried in a developing country and so, opportunity to publish shall be given provided that most efforts have been carried out to keep high level standard of the journal. This was objectively the case here. Valuable reports on innovative healthcare projects in developing countries (e.g. HSCT centre management in Nigeria) will and shall be always welcomed... to hopefully make valuable changes! I have specified only a little change which can be found and taken into consideration in the joint revised manuscript.
