SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. There may be missing citations in the introduction. Please cite "Hydrogen peroxide is abundantly present in the thyroid gland..." and "Fruits like oranges, guava, mango..." 2. Was FNAC used to diagnose benign goiter? Can clinical exam and biochemical data adequately be used to diagnosis benign vs. malignant? Could this have affected results ? Please expand on this. 3. Please include limitations of your study in the discussion.	This has been cited as Refs 7, 8 and 9 Reference 10 The initial diagnosis is by ultrasound guided FNAC and where malignancy is suspected the patient goes for surgery and excisional biopsy and histology is done. This has been stated under method section
Minor REVISION comments	English grammar needs to be improved upon.	Noted
Optional/General comments
