SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	- English correction in manuscript and References - Space between words in the sentences	All suggested corrections were made and underlined text in yellow, with the exception of the words together, for they were many and leave the text very strange, so such corrections were not underlined, but were made.
<u>Minor</u> REVISION comments	No	
<u>Optional/General</u> comments	This experiment tested in some species of Candida but author mention in <i>C.krusei</i> only, please give brief explanation about it's the most important one. This manuscript did not mention about ethical issues although this experiment collected sample from outpatient	Was chosen the species <i>C. krusei</i> , as it is one of the most responsible for nosocomial infections in Brazil, so work was directed to this species of fungus. The fungal samples were part of the collection of the laboratory for this work there was no direct or indirect contact with humans.
