SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The quality of the paper is generally good, the major revision regards the use of CLSI 2005; is appreciated the use of a new CLSI, like CLSI 2012 or CLSI 2013. Moreover define an increment of percentage in <i>E. faecalis</i> vancomycin resistant with just one resistant strain, it would be a stretch to.	The old version of the CLSI (CLSI 2005) has been replaced with the recent version of the guideline and appropriately checked for correctness.
<u>Minor</u> REVISION comments	The author should review the style of the tables.	The Tables have been revisited
<u>Optional/General</u> comments	The paper is generally good and provides an interesting upgrade in these fields of research in these area of the world.
