SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	On page 3, it is not clear what EID stands for. On page 4, PMTCT is introduced as an acronym again but this was already done on page 2.	EID stands for Early Infant Diagnosis. The full meaning has been inserted in line 69. "Prevention of mother to child transmission" has been deleted as pointed out in line 94.
<u>Optional/General</u> comments	In general, I found this to be a very well written and straight forward paper. There were no surprises and no meaningful suggestions.
