SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Very important issue. This paper shows the pattern of nocturnal enuresis in the south-eastern Nigerian. However, I need some corrections and explanations.	
Minor REVISION comments	I suggest that the paper should be published with minor revision. In study procedure; line 79 and 80: I suggest that the author evaluates whether the word "encopresis" or "encopresis" is correct. Normally they use word "encopresis". Further, the authors should explain why they included encopresis questionnaire? In this paper the authors focused on nocturnal enuresis. In my opinion this questionnaire is inadequate for this paper. Results Attention missing parentheses in line 119,120 and 122 "(p = ...)". Discussion Line 136; check "...Yeung et al" and correct for "...Yeung et al". Line 178; check "However Senbanjo [30] et al" and correct for "However Senbanjo et al [30]". Line 183; check "Mungan [31]" for "Mungan et al [31]". In conclusion; line 187: I suppose that is "...slight male preponderance" rather than "...slight female preponderance...". References check the pages of different articles (ref 5, 19, 20, 26,27,28, 29, 30), (e.g. in the ref. 5 "...30-3") Ref 19 - Shortening more than 6 authors to et al.	This has been corrected. See page 4(study procedure) We have explained why we included encopresis questionnaire. See page 5,line 12 -13 This has been corrected. See page 6,last paragraph We have rectified this error. See page 8,paragraph 2 This has also been corrected. See page 10 last paragraph This has also been corrected. 10 last paragraph This has also been corrected. See page 12
Optional/General comments	English language is inappropriate; the article requires a complete revision, even for some of typos.	We have tried our best to revise the English used in this study
