

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	2014_IJTDH_13391
Title of the Manuscript:	Therapeutic arsenal against leishmaniases: a review
Type of Article	Review Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Language corrections and sentence framing has substantially improved clarity of the article References are now in proper order I have pointed out in the text where an extra table would be useful I leave the decision to include "alternative medicine and naturotherapy" to the journal editorial. The authors have, nonetheless, done a good review on complementary medicine, even though the use of such in clinical practice needs validation	On behalf of all authors, thank you for your time and comments. We have considered very carefully each point discussed and we would like to thank you for your fruitful comments. It was a hard work, but we agree that the corrections helped us to improve the manuscript. We also agree with the final comments, so we included the extra table and corrected each reported point, which have been answered and the changes were highlighted in yellow.
