

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	2013_IJTDH_5922
Title of the Manuscript:	Hepcidin: A New noninvasive biomarker for histological cirrhosis in Hepatitis C virus Patients

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1. The authors added "table 5" and "figures 1 - 3" in the revised manuscript without any explanation. They should properly describe the results and discuss them. 2. pp. 14 lane 21 "This can be explained by that, they excluded decompensated patients from their study." In the first review, I asked the authors "Why can they say so? They did not fully respond to this question. 3. There are still some grammatical errors throughout the manuscript.	1- Table 5 was already involved in the discussion part, a new paragraph highlighted with yellow color had been added to the discussion part concerned with the figures 1-3 2- In this paragraph we present the opinion of Tsochatzis et al who exclude decompensated patients fro their study and the differences yn biological markers usually don't appear in compensated population of patients 3- We did our best to correct any grammatical mistakes
