SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	It is a well written manuscript adding new information on the domain in hypertension in Africa. However, it needs some major revision before its publication. Authors should check for syntax and grammar errors for example lines 30-31 (??) The second and third paragraphs should be added in the discussion section and not in the introduction. There is too much information in the introduction. The new guidelines regarding the management and diagnosis of hypertension should be mentioned in the text as well as in the references. Finally, the discussion section should begin with the major finding of the study (lines 236-238)	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
