SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1). The Authors guideline informs us that discussion should not repeat result but provide interpretation of data, that is interpret significance of the findings. Hence all that is marked with pink colour in the discussion section should be deleted. E.g. see lines; 123, 140,141,148,152, 153, 160, and 166 2). The reference column is not good and should be corrected; <i>Et al</i> should be sited after the sixth Authors names according to the Authors guideline but in lines 220, 224, 227, 245 they were not properly done. The page pattern should be uniform, eg line 214, the page was 1632- 41 but it should be changed to 1632-1641, Lines 223, 229, 251pagings should be corrected so as to have the same page system as others in the reference column of the article. In some of the references the Topics are BOLD while in few, there are no Bold. Please one pattern should be used. Some of the references were not properly written. The areas in the reference column that needs corrections are marked pink. So refer to the
