SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments		
Minor REVISION comments	I suggest a change of the title. In my opinion, the title should not be a question but a statement: Hypertension – the greatest cause of morbidity, hospitalisation and mortality in The Gambia	
Optional/General comments	• Materials & methods are suitable for the actual study. • Results & discussion: 1. The data are well controlled and robust. 2. Authors provide relevant and current references during discussion. 3. Discussion and conclusions are based on actual facts and figures. 4. The article has sufficient and appropriate statistical analyses. • Conclusion is supported by the data discussed inside the manuscript. • All the cited references are relevant and adequate.
