SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	• Abstract FLOW of ideas and concepts MUST be redrafted for clarity. Abstract should be understood by reader without refereeing to main text ('stand alone'). • Malaria parasite species names MUST be written in italics consistently throughout manuscript. • Malaria Global Situation heavily biased towards Nigeria----it should be balanced. • Areas that require further research should be strongly highlighted to create base and attract interest for future research. • Reduce historical aspects and focus more on recent findings and direction of research on human malaria.	
<u>Minor</u> REVISION comments	• Use properly constructed sentences and proper grammar. • Some sentences not clear eg Lines: 9, 10, 65-67, 68-70, 185 etc. • Remove hanging sentences eg line 222. • Remove repetitive sections/sentences eg 223-
