SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comments (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The effort was good but not enough. A paper is too «poor» if it includes only the results of urine cultures of infants with <i>Candida</i> . Moreover one should decide if the paper focuses on microbiological matters or clinical ones. Statistical comparison is also necessary in order to draw conclusions. In any case the discussion should be more centered on candiduria in infants and not general information.	
<u>Minor</u> REVISION comments	English language needs correction	
<u>Optional/General</u> comments		

Note: Anonymous Reviewer
