SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1- This article deal with assessing personal hygiene and health status of vendors involved in informal sale of food in Yaoundé, Cameroon. The methods used in this stud were investigated through medical examinations (stools analysis for ova and cysts of parasites) and questionnaires. This is reflected that the author analyzed stools of human begin in Cameroon and he did not analyzed the food vendors samples and he did not used any equation to correlated between the samples positive from stools and food samples positive. So author is invited to explain how can proof this parasites from food not water?????? 2- The article includes the part of discussion and the author through the results repeated the discussion. So the author must separate the results and comments only the main results and delete the repeated sentences.	
<u>Minor</u> REVISION comments	The article need more attention about the typing mistakes	
<u>Optional/General</u> comments
