SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This manuscript has several major limitation. 1. title should be revised (see manuscript) 2. the isolates are not identified as E. coli O157:H7; so state them as presumptive E. coli O157. 3. Many other issues are highlighted in the manuscript file, please see and correct them.	The authors appreciate your sound comments and constructive judgements. All limitations observed by the reviewer have been noted and corrections effected. The authors wish to retain the name E. coli O157:H7 and not E. coli O157 as other 7 reviewers do not comment on it.
<u>Minor</u> REVISION comments	1. Reference should be according to journal format.	Noted and corrections effected.
<u>Optional/General</u> comments	Language quality should be improved Please make clear whether informed consent was taken from the patients.	Informed consent and ethical approval was obtained from the ethical committee of the ABUTH, Shika, Zaria.
