SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. Table no 3 and Table No \$ could be combined into one 2. The discussion repeats the data already given in the results 3. In discussion the authors have discussed the reason for multiple antibiotic resistance of others work but have mention none for their own work The manuscript is well written and can be published after the following revisions, as this is an important consideration but if possible the authors can think of determining the environmental source of the infection, as it has serious epidemiological significance.	All corrections noted have been considered and effected
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
