

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	2015_IJTDH_18522
Title of the Manuscript:	Inducible and Constitutive Clindamycin Resistance in Staphylococcus spp. Strains Isolated from a Neonatal Intensive Care Unit
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The revised paper is much better written than the original. Modifications were made that meet the requirement for publication. However, this paper needs to be modified in the editorial process for publication by someone whose native language is English. Almost every paragraph has sentence structures that would never be written by an English-language native person. I can understand what is being written but it is very difficult to read and understand relative to how I would write/compose the same information. If it is published as is, some of it will be misunderstood by many people.	Some changes were made to improve the understanding of the text, as suggested by the reviewer.
