SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. please put one sentence for introduction in abstract 2. your real introduction is lacking the gravity of the problem per international and national current indicators, please remember to start with the indicators that address FP services in Nigeria. 3. You need to add the unmet need of FP service indicator as per WHOSIS, 2014 for your country. 4. The sample size determination must be honoured 5. Your table 1-3 in the results for frequencies can be removed and just explain the findings 6. The column of degree of freedom in your results tables has limited need in these tables and findings please reduce your table by removing such unnecessary output! 7. Your findings in the tables are very important but some are not clear and not realistic like in Table 3, natural methods – they are not adding up to 100%, why? Redo such analysis! 8. Most of the important analysis has not been captured in words yet you have nice tables, however, due to rule of the thumb, on number of tables, in a scholarly paper, you need to express the tables in words as they will only	Correction effected Correction effected Correction effected Correction effected Correction effected Correction effected Correction effected Correction effected

	require to be maximum 3 on final paper. 9. In your methodology you explained the use of chi-square analysis but I have seen limited variables that were tested in your results, please run such analysis to uplift the result of the paper. 10. You still need to express the conclusion of your findings on influencing factors as what you have done is just a summary. 11. Your reference is not CAPTURED correctly, please use the template provided by this journal on their website to check how it must be done.	More tables have been added on chi-square Correction effected Correction effected
<u>Minor</u> REVISION comments	1. Reduce number of tables and the font	Correction effected
<u>Optional/General</u> comments	This is very important area in Nigeria as the population is shortly going to surpass the land capacity
