SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Method It is better to include definition of upper, middle and lower social classes as it is described in the results. Ref: Three authors should be enough. eg Ref: no 6 Grogory JW, Greene SA, Scrimgeour CM, et al Ref: no: 8,9 10,11,13,14,21,22 should be amended in such way.	Definitions of the social classes included in methodology section (pages 2-3) References amended as suggested (pages 7 & 8)
<u>Optional/General</u> comments	It is a good effort. It is suggestible to do follow of those obese and overweight students and others till age 50 to see who would develop central obesity in their later life.	Subjects who were found to be obese were appropriately counselled and referred to the Hospital for further evaluation and follow up
