PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Excellent study is carried out by the authors but some major comments are as follows: 1. Abstract part consist of may spelling mistakes (eg: Ttime series of time series) 2. conclusion part of the abstract needs to be rewritten. 3. What author needs to explain in introduction part from "A chronological series is a set of observation x_t..... at time t"? 4. Complete introduction part needs to be rewritten and may use scientific language for writing the manuscript (eg. dirty hands, are far from the , greater bulk studies, on that point etc..) 5. Required to elaborate more like "study are, collection of data, statistical methods used, detailed methodology of the model" 6. Unable to understand the methodology part, consult statistician to rewrite the methodology briefly. 7. The study results were not discussed properly. Description of autocorrelation is not required in results. Mention what results have obtained during the analysis.
