SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Please consider all the comments made.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The author would have included the Hookworm load; this will give light its intensity and its epidemiology greater meaning. This is because lighter hookworm load is compensated for in countries that have adequate supply of iron in table salts.
