SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	National programme has achieved a case detection rate of 43%, treatment success rate of 84% and cure rate of 72%. These achievements still fall below the global targets. However, failure to expand DOTS a service to the private sector has been identified as one of the reasons militating against the attainment of global targets. An attempt was made to study compared the treatment outcomes of TB patients managed at the public and private DOTS facilities in Lagos Nigeria.
