SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<u>Abstract:</u> Context: This is made up of I) State of facts, knowledge, limitations II) Aim III) Objective Methodology: "Study design", "Place and duration of study" is usually included into methodology. ".....Haemocrit of 33%"; This value may skew the result to higher prevalence (comment?) <u>Introduction:</u> In line 31, "In a tertiary....." The sentence is incomplete, complete it.	
<u>Minor</u> REVISION comments	<u>Abstract:</u> Aims: Change "developing" to "poor resource" in the first sentence, "consequences" to "complications" in the second sentence. Results: "Prevalence of was 71.3%", It is epidemic of anaemia during the study. Delete "severe anaemia was 1.4%". Conclusion: "The prevalence of.....is high..." It is not only high but an epidemic.	
<u>Optional/General</u> comments	Elaborate further on the application of Epi info 3.3.4 viz a viz its usefulness in multiple logistic regression analysis. Accept for publication after major changes have been effected as suggested.
