SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	In the statement of Competing Interests instead "Nill" should be written the sentence: "Authors have declared that no competing interests exist."	
<u>Optional/General</u> comments	The manuscript is interesting with concrete information about the level of knowledge on leptospirosis among college students in Chennai, India before and after the health education program. The authors had given data to all aspects of the studied field such as demographics and questions on awareness of leptospirosis, risk factors, mode of transmission, symptoms and human vaccine and had compared their results with appropriate other recent studies. The study design is good and clear, the methodology had been described concisely and correctly. The statistical analysis had been based on appropriate statistical method. The conclusion is adequate to the results of the study. The style of writing is clear, the language is very good and easy understandable. The references involve appropriate general and more specific sources and had been cited correctly.
