SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	No mention ethical clearance for this study	
<u>Minor</u> REVISION comments	1. Abstract: the last three lines in result section to be reframed to make better meaning. 2. Reframe key words: Trends, malaria incidence, Edo State, Nigeria 3. Intermittent Preventive treatment f Malaria in pregnancy is abbreviated as IPTp 4. Discussion first paragraph line 6..'the country wide reduction.....were not observed but that was not completely shown in table 3 as few local govt had reduction i.e Igueben, Orhionmwon, Owan East, Uhunmwonde etc. 5. Are you aware of percentage of ITN use in Edo State?, as this could be a contributory factor to some of the observation.	
<u>Optional/General</u> comments	Good study that can contribute to intervention processes and policy.
