PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript is a high quality review about different possibilities to approach the control of several disease vectors through the employment symbionts. The article is very descriptive and english has been written in a right way. The text is clear and concise, and the two tables provide useful info for reader. None substantial reference has been missed in the bibliography.	
<u>Minor</u> REVISION comments	Just a minor modification: according to the International Code of Zoological Nomenclature, first time a species is named in the text author and year should appear, e.g. <i>Anopheles gambiae</i> Giles, 1902. So please, apply this to each species included in the text. Is very important to accomplish the nomenclature rules at scientific level in research journals.	
<u>Optional/General</u> comments
