SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The title is misleading because this work was done in Enugu state which is one out of 5 state of S E Nigeria. The calibre of Health workers interviewed must be indicated. Were they midwives or registered nurses or public health nurses? This information helps to know the level of training of these workers. What is the validity of the interview schedule used as instrument? The conclusion concentrated on insecurity and failed to highlight the other factors contained in the introduction.	
<u>Minor</u> REVISION comments	The introduction need to be revisited for there are a lot of repetition and the problem not will stated. The study not really justified	
<u>Optional/General</u> comments
