## SDI Review Form 1.6

### PART 1: Review Comments

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)                                                                                                                |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <p>— There is a mistake about the population at line 75, please check it.</p> <p>— Modify the headline "3. RESULTS AND DISCUSSION" at line 81. Make it different from "4. RESULTS AND DISCUSSION"</p> <p>— Correct the grammar mistakes and spelling mistakes seriously and one by one throughout the article.</p> <p>— Amend the sentence "The expansive correlative interpretation of the 50 groundwater samples geophysical and chemical data of pre and post monsoon seasons with computed arguments revealed mechanisms controlling its genesis." to make it clear.</p> <p>— Keep the pattern of the figures the same.</p> <p>— Literature part should be expanded and added newest studies.</p> | <p>- Corrected</p> <p>- Line 81 Changed to Methodology</p> <p>- The whole manuscript has been thoroughly checked for grammatical and misspelt words.</p> <p>- The sentence has been corrected</p> <p>- Uniform pattern of the figures is done</p> <p>- The references were chosen as apt</p> |
| <b>Minor</b> REVISION comments      | <p>— Give the correct forms of the units "km" at line 75 and "gm" at line 87.</p> <p>— There is a space between the number "1.5" and "ppm" at line 106, so do others.</p> <p>— Distinguish the number "0" and the capital letter "O" in table 1.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                  | <p>- Corrected as stated</p> <p>- The spaces has been corrected in all cases</p> <p>- Number zero = 0 and Capital letter is O.</p> <p>Capital letter is in formulas whereas zero is units</p>                                                                                                |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                              |
