Reviewer's report: It is a good article because:

-clearly written, with correct spelling and grammar;

-coherent formatting, good organization of the article into sections,

-is a good summary and introduction to the topic;

-it references to sources of information in the all sections;

-all information is supported by bibliographic data;

I personally do not think, as this manuscript it needs changes.

Level of interest: An article of outstanding merit and interest in its field.

Quality of written English: Acceptable.

The manuscript "CYCLIC VOLTAMMETRIC STUDY OF LOSARTAN POTASSIUM,, is in areas of International Research Journal of Pure and Applied Chemistry.

Accept without revision.

Declaration of competing interests: 'I declare that I have no competing interests'.
