PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The keywords are not related with the content of the manuscript. Please replace them with other related words, such as saponin, Citrus aurantifolia, and the rest of the citrus species mentioned in this ms	
<u>Minor</u> REVISION comments	<p>The title is best to be changed as "Determination of saponin content of various parts of six citrus species"</p> <p>As saponin can be divided into a few such as triterpenoid saponin, alkaloidal saponin, or steroidal saponin, the authors may also discuss them in the ms.</p>	
<u>Optional/General</u> comments	Overall the ms is well written, but I am not sure regarding the writing style of citing the reference in the beginning of the sentence and directly continue the sentence, right after the reference citation, which was read as an incomplete sentence. For instance: line 140-[4] Documented that saponin possesses clear insecticidal
