PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	*I read carefully this MS entitled "Reversed phase HPLC-UV quantitation of BHA, BHT and TBHQ in food items sold in Bindura supermarkets". The MS deal with the levels of these antioxidants in commercially available six vegetable oils, ten bread spread, and seven snacks. The experiments are effective and the results are beneficial to consumers. From these reasons, I recommend to accept for publication in your journal.	noted
