SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Nice Work needs minor revision.	
<u>Minor</u> REVISION comments	The English Language must be revised. Revise equation 2 and all equation must be written by an equation editor. Be sure from the units of Kd all over the manuscript. Revise equation 5. I suggest adding lines to Figure 3, and so correlation is well be noticed. All horizontal lines of the table must be of the same size. Which points under aerobic and which under anaerobic conditions of Figure 2	The entire paper has been revised for language editing. All the comments have been effected in the body of the manuscript. The equation 2 and units of Kd has been corrected. Also, all horizontal lines are now of same size. The pattern in Figure 2 reflects total desorbed PFOS (already indicated in the footnote).
<u>Optional/General</u> comments
