

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	2014_IRJPAC_11331
Title of the Manuscript:	Thermal Properties and Structures of CsHSO ₄ and CsDSO ₄ Crystals
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper could be accepted in this form, it is interesting and quite original. I have only one remark. The authors should upload the references: they are a lot of date. Please, add recent references.	As pointed out by referee, many papers on mixed crystals of CsHSO_4 and other ionic solids have been published in recent years. However, we can not find the papers on the pure CsHSO_4 crystal, except for the papers published in 2005-2008 years. These papers of 2005-2008 years have been included in the list of references in the present manuscript. Therefore, recent references have not been added to the revised manuscript.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
