

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	2014_IRJPAC_11921
Title of the Manuscript:	Separation of Palmitic and Palmitoleic Acid using Transition Metal Salts: Part 2
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The work is original & applied, it seems to be extension of previously published work by the author and has some novelty. Experimental section should be clarified. All Figures & Tables should be numbered	All tables and figures were numbered as suggested. The experimental section was revised for clarity.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	Different transition metals may also studied in addition for better explanation.	This is a valuable suggestion and our future studies will be geared to evaluate how other select transition metals will respond to the separation system described in the manuscript.
