SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Compare results with some other studies from the region. At many places words are mixing with each other and need space after each word for eg. Manganeseand (space missing). Reference values of heavy metals in dust should be included. Consult and include the following reference for comparison and better understanding of the heavy metal pollution. Pollution Status of Pakistan: A Retrospective Review on Heavy Metal Contamination of Water, Soil, and Vegetables, BioMed Research International. (2014) vol, 2014, 29. ID 813206. Air pollution Monitoring in Urban Areas due to Heavy Transportation and Industries: a Case Study of Rawalpindi and Islamabad, Journal of the Chemical Society of Pakistan. (2013) 35, 1623-1629. Bring change in title as "EVALUATION OF HEAVY METALS IN ROAD DUST IN JOS, PLATEAU STATE, NIGERIA".	I agree and this will be effected in the modified manuscript I agree, this was due to the version of Ms Word (2013) used for the manuscript. This correction will be made I do not agree with this because enough references were made in the manuscript and these include that from India, Jordan and Bahrain. Well, I agree and the correction will be effected in the modified manuscript
