

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	2013_IRJPAC_5749
Title of the Manuscript:	Synthesis of 3-azoindoles
Type of the Article	Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Comments In the manuscript the authors have described the synthesis of Synthesis of 3-azaindoles. The compound characterized by elemental analysis, IR and NMR spectral studies. The study is well conducted and may be considered for publication after minor revision. The study is lacking in some aspects which need to be addressed. 1. The authors should provide accurate mass spectral data for characterizing the compound This creates interest among the readers of the journal. 2. The 'J' values in ¹H NMR spectra are necessary. 3. The authors should clarify the methods / analytical instruments used for elemental analysis, IR and NMR spectra. 4. There are some minor typographical errors in the manuscript that need to be addressed.	1. The mass spectral data are incorporated. 2. J values in ¹H NMR spectra not available. 3. The analytical instruments used for IR and NMR spectra are now mentioned at the end of experimental section. 4. All typographical errors have been corrected.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
