PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The paper has been adequately revised, however there are a few typographical and phrasing problems that need fixing. Line 98: The sentence should not begin with a numerical value but a word. It is recommended that Figure 1 and figure 2, be referred to as Photo 1 and Photo 2 respectively. Line154: Labelling of samples a,b and c of bottles in photo is required. Line 159: Labelling of samples a,b,c, and d of bottles in photo is required. Line 266: The word kink should be replaced or represented as 'kink'. Once these comments have been attended to then I am satisfied that the paper should be accepted for publication.	1. Correction done – line 98 2. Figure 1 and figure 2 changed to “photo 1” and “photo 2” 3. Labelling added – line 154 4. Labelling added – line 159 5. Word kink represented as “kink”
