

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	2013_IRJPAC_5749
Title of the Manuscript:	Synthesis of 3-azoindoles
Type of the Article	Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In general this is a poor written article and does not have enough data to be published as a full research paper. The following are some major revision: Abstract: (1 a- It is better to avoid mentioning reference number in the abstract. b- The sentence “It was been considered” correct. Results and discussion: (2 a- Line 38: “NMR” change to “¹H-NMR” b- Line 45: “fig 1” change to “Fig1” c- Line 71-72: molecular ion peak at m/z= 318.6 “it’s better to write the corresponding

	molecular formula. Experimental: (3 a- Lines 78, 80, 93 and 110: “at ooc ..” correct all. b- Line 100, 101 “...NO₂, CDCl₃”correct “subscript” c- Lines 101 and 113: “oo2.75 and oo2.9.....” correct. d- Descriptions and types of IR, NMR and mass instruments are not found. References: (4 a- Line 143: Remove number “5” in front of the title “References”. b- In general most References are not written in the same way and needs to be revised. End of my comments
