Subject: RE: Request for final evaluation of revised manuscript (version 2) number: 2013_IRJPAC_7819

The revised paper is not attached in revised paper version 2. If the author has revised according (as mentioned below) to their sentence, Then can be accepted.

Attached Part:

FINAL EVALUATOR’S comments on revised paper (if any)	Authors’ response to final evaluator’s comments
In corrected manuscript, it is written that “Samples were withdrawn from the dye solution at certain time intervals,” Author should describe the time interval (page no. 3).	1. I think there is no need to describe those intervals as it is clear from the figures that they are 30, 60, 90, 120, 150, 180, and 210 (from the points corresponding to the time intervals shown on the time scale axis), anyway I introduced those values in the text.
2. One should write the discussion (page no. 11) like “This behavior is expected as explained in literature [56].”	2. done
3. The results obtained for removal percent showed that by increasing initial dye concentration, - Please correct the grammatical part for this sentence in page no. 12	3. done
