

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	2014_IRJPAC_10562
Title of the Manuscript:	Study of Starch Based Biodegradable Polymeric Surfactants for Better Cleansing Activity

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1. Relook the figure captions; in some figures, there is a full stop after the number while others are without full stop. 2. Line 239; 'From Figs. 5and 6' why and is bold. There should also be a space after 5. 3. Fig. 7; the sub-heading (e) is in brackets while a, b, c and d are without brackets. 4. Fig. 8; kindly redraw the scales. In the present form, the scales and axis headings are illegible/unreadable. 5. Line 294; 'Figs. 8.a, b and c' should be written like Figs. 8a, 8b and 8c. Same comments for line 248 and others. 6. Line 313; there should be space between number and unit. 7. Still the paper is full of typographical and grammatical errors. 8. References have not been written in same font size and style. As an example, check line 406, 408 and 413. 1) Cite this article in your text: M. Y. Naz, S. A. Sulaiman, B. Ariwahjoedi and Ku Zilati Ku Shaari, "Characterization of Modified Tapioca Starch Solutions and Their Sprays for High Temperature Coating Applications", Scientific World Journal, vol. 2014, Article ID 375206, 2014, doi:10.1155/2014/375206.
