

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_20507
Title of the Manuscript:	Survey of Efficiency Agricultural Weast us adsorbent for Removal of P-Cresol from Aqueous Solution
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The Manuscript Ms_IRJPAC_20507 titled Survey of Efficiency Agricultural Waste as adsorbent for Removal of P-Cresol from Aqueous Solution is analysed the feasibility of removal of p-Cresol from aqueous solution by the agricultural waste Canola. The work is presented well and the authors should consider the following comments. 1. The heading verify the spell correction, is it weast us or waste as. 2. In the Figure 5, the figure heading is not given. Consider that. 3. To improve the novelty the authors must include the thermodynamic parameters and prove the feasibility of the adsorption.	We are thankful because of review our manuscript. We revised this manuscript according the reviewer's comments as follow: 1. The "weast us " was a typographical error and correct spell is "waste as" which it revised. 2. the figure heading of Fig 5 is added and the number of Tables is revised. 3. The part of thermodynamic studies did not conducted and it is not the goals of this study.
<u>Optional/General</u> comments
