SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	This is a well-organized paper concerning environmental studies. I see no significant grammar issues. The authors have prepared interpretable TABLES and useful FIGURES. Both are relevant to the discussion. There are sufficient references. The paper is well organized for a large amount of data of metals. TABLES are easily understood. The paper will be useful for readers involved in studies of metallic contamination or natural distribution of metals.
