SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	This is a well written paper and there are not any major revisions accept a few comments which have been marked in the text.	The few comments have been corrected in the manuscript.
<u>Minor</u> REVISION comments	These have been marked in the text.	The marked comments have been corrected in the manuscript.
<u>Optional/General</u> comments	This is an interesting paper where a general conclusion has been drawn with regards to the integrated use of organic and inorganic fertiliser on growth of cucumber and that the productivity of cucumber increases when integrated fertiliser treatment is done. This can be adopted by the farmers who have limited resource option.	Thank you for the commendation and interest on the paper.
