

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Agriculture and Ecology Research International
Manuscript Number:	2014_JAERI_15558
Title of the Manuscript:	Potential of solid waste composting in the Gaza Strip- Palestine
Type of Article:	Short Communication

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<u>Comment on V2 of article solid waste management in Gaza Strip</u> Abstract In abstract the 1st opening sentence followed by 2nd are not desirable. Placement /application of manure and fertilizers is never in same operation. Therefore question of mixing is not practiced. For such a short article the abstract is too long. Introduction 1st Sentence is not clear as, is it closure or removal? Author should justify the international gains from the publication, in addition to that in Gaza strip Palestine, in introduction before writing the objective of the study. Method and material There are different types of composting methods which produce different nutrient content. The reviewer made repeated comment on to describeit. Appart from the quality, the compost preparation will cause pollution problem. Result Analysis. Carry out the comparative study of TNK trading among the Inter for present and future international trade.	Thank you for your points which I did my best to consider as I added figures about compost producing methods in Gaza and more discussion about locally produced compost. The sentences in abstract and introduction are corrected.
