SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The idea behind this investigation is very good since it can benefit the farming community especially the horticulturists who are interested on producing all sorts of vegetables. However the manuscript is not suitable for publication in its current form. There are lots of gaps that need to be filled and mistakes that must be corrected. In order to achieve all these, the author need to be assisted with an experienced researcher both in terms of language and research methodology. The manuscript need a serious but major corrections. I have indicated all forms of mistakes, queries and suggestions on the attached text (see the highlighted areas).	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	My final comment is that the manuscript sent back to the author for serious and major revision under the supervision of an experienced researcher.
