SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Abstract is incomplete and you should write it according to the standards of the journal (items: aims, study design, place and duration of the study, the methodology, results and conclusion). It does not indicate place and duration of the experiment and you should clarify the used methodology (Materials and Methods). I suggest changing keywords by other different words to the title. Improve the wording of the objective in the Abstract and in the last paragraph of the Introduction. Material and Methods. OK. Very complete writing. Excellent. Results and Discussion. OK. I suggest adding a citation in the discussion in section 3.2.3. Conclusion. OK.	
Minor REVISION comments		
Optional/General comments	This paper reports many interesting observations about the effect of Municipal Solid Waste Slurry (MSW) of Biogas Plant on Soil Parameters and Yield of Spinach in Bangladesh. Some corrections should be done on the content and form before its publication.
