

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Agriculture and Ecology Research International
Manuscript Number:	2014_JAERI_15558
Title of the Manuscript:	Potential of solid waste composting in the Gaza Strip- Palestine
Type of Article:	Short Communication

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Changes that the author made in the revised version of the manuscript meet most of the remarks I made in the original version. Nevertheless, I suggest the author to submit the revised manuscript for additional English editing. Not only for proofreading but mostly for the improved arrangement of the manuscript. For example, a part of the new paragraph – the last one in Introduction – can be moved to the new section “Materials and methods” as well as a part of Discussion related to collected statistical data. To concentrate in this new Section: most of the data description and a short presentation of the “Cross-sectional analysis” used in this paper.
