

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	2014_JAMPS_12865
Title of the Manuscript:	Is Cystoid Macular Edema More Frequent In Vitrectomized Internal Limiting Membrane-peeled Eyes Undergoing Phacoemulsification?
Type of the Article	Short communication

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1) Fig 1and 3 have to be changed. This figure is column, but I think it have to be line charts. And authors have to indicate SD. 2) Please add unit. Unit for CMT is micrometer. 3) Title of chart has to be written only at legends. I think you do not have to write "All patients (n=43)" or "CME pts (n=6)". This information should be included in legends. Then, these figures become better enough to be accepted.	Thank you to the Final Evaluator for the kind advice. 1) We agree the figures should be changed. Box whisker plots are the more appropriate. SD is indicated by the whiskers. 5th and 95th Percentile are a function of the SD. 2) Line 220. Changed as advised 3) Changes made as advised
